

## MG4U

# Marine Genomics for Users

---

### Work Package 1. Project management and internal communication

Work Package 1 comprises tasks related to management of the MG4U project, notably coordinating contractual commitments and ensuring efficient internal flow of information between the project coordinator, the General Assembly (GA), the Steering Core Group (SCG), Work Package leaders, and participants in each WP.

An Advisory Board (AB) will act as a central observer and advisor, and will comprise SME-stakeholders and representatives of marine organisations. Work Package 1 will monitor progress of the project relative to stated objectives and deliverables and will design and implement a risk management plan in order to efficiently react to unforeseen issues.
