

MG4U

Marine Genomics for Users

Work Package 3. Knowledge transfer to the scientific sector in research, government and industry.

WP3 will define how best to provide required training to scientists working in industry and government and will oversee provision of the MG4U training programme. A survey and analysis of the effectiveness of the approaches adopted will also be conducted.

Objectives:

- Define how best to provide required training to scientists in industry and government;
- Provide training;
- Survey and analyze the effectiveness of the approaches adopted.
